

Assignment #2

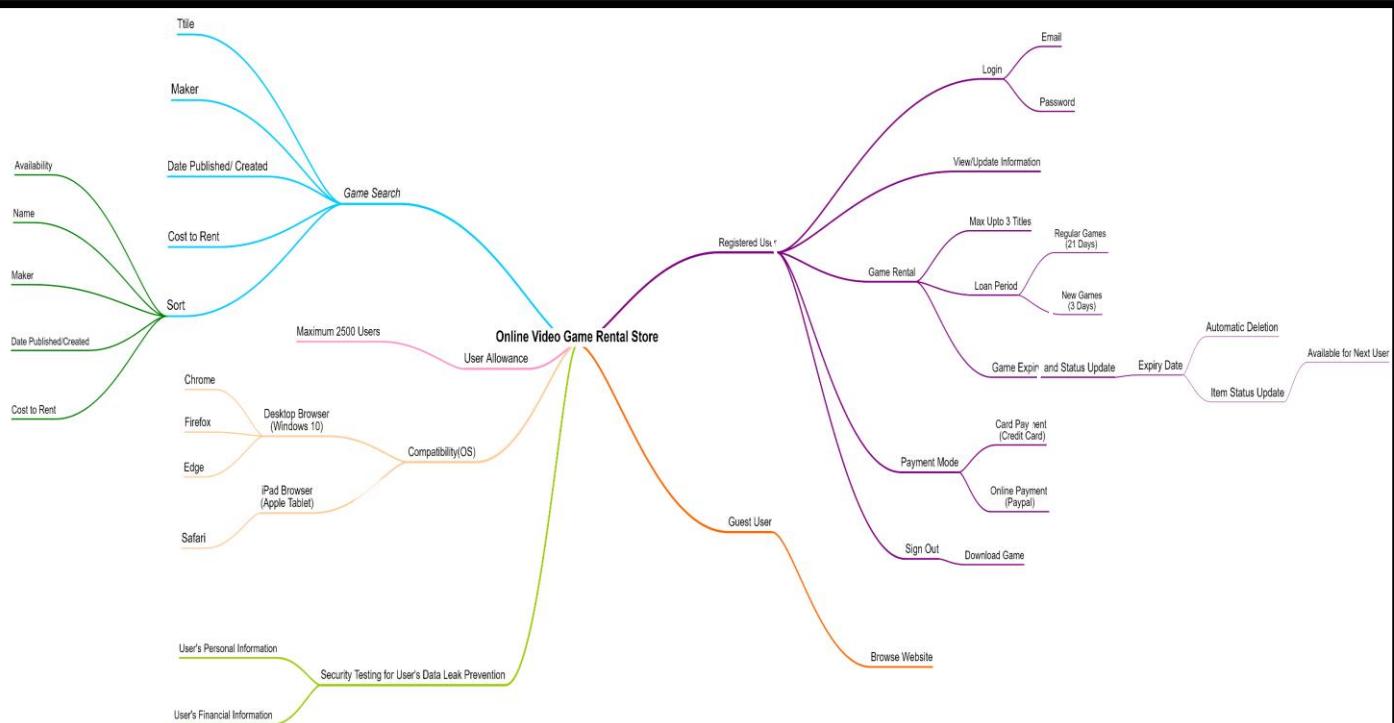

Name: Shivani Shaileshkumar Varu

Student ID: 8941914

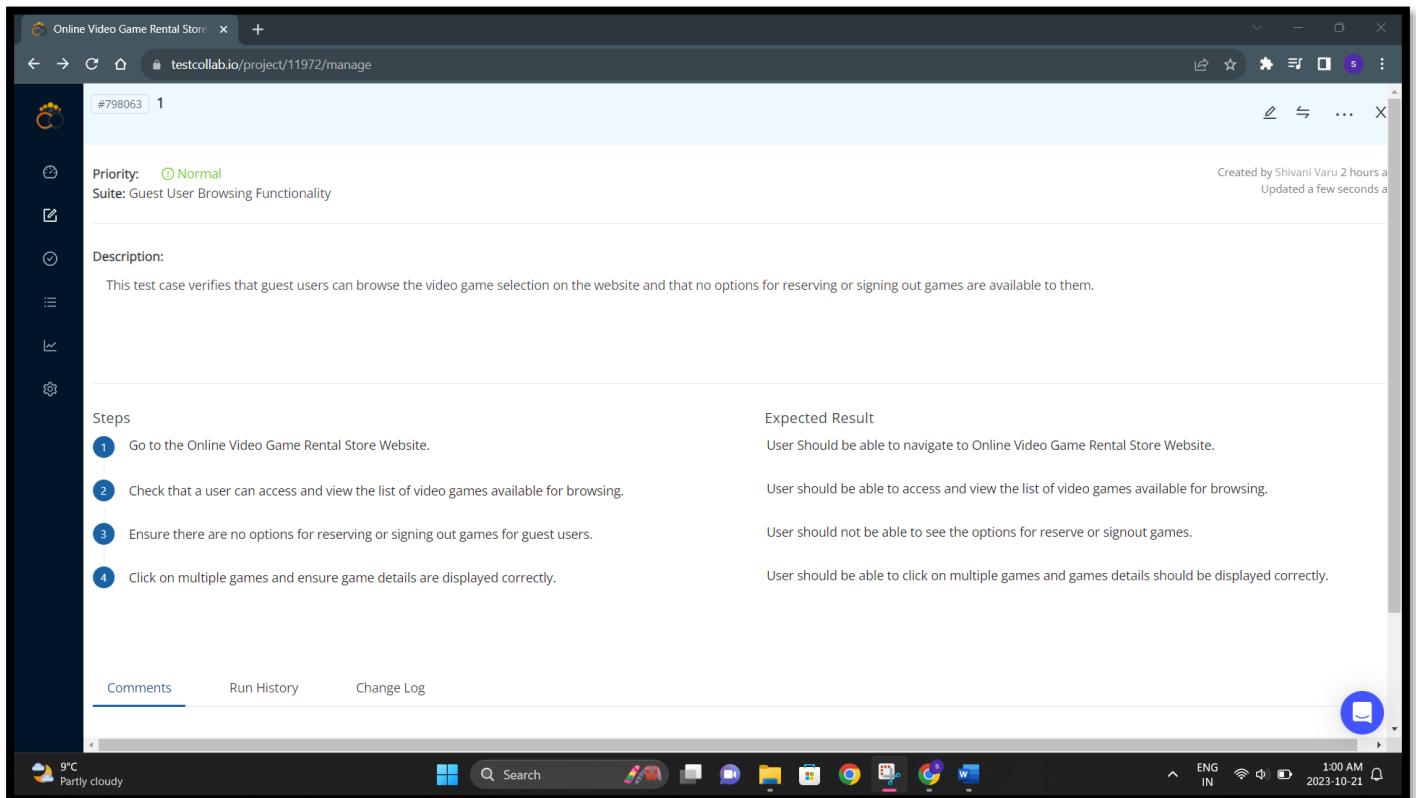

Date: 28-09-2023

Section Number: Section - 4

Part1: MindMaps

Part 2 :

Online Video Game Rental Store [testcollab.io/project/11972/manage](#)

#798063 1

Priority: Normal
Suite: Guest User Browsing Functionality

Created by Shivani Varu 2 hours ago
Updated a few seconds ago

Description:

This test case verifies that guest users can browse the video game selection on the website and that no options for reserving or signing out games are available to them.

Steps

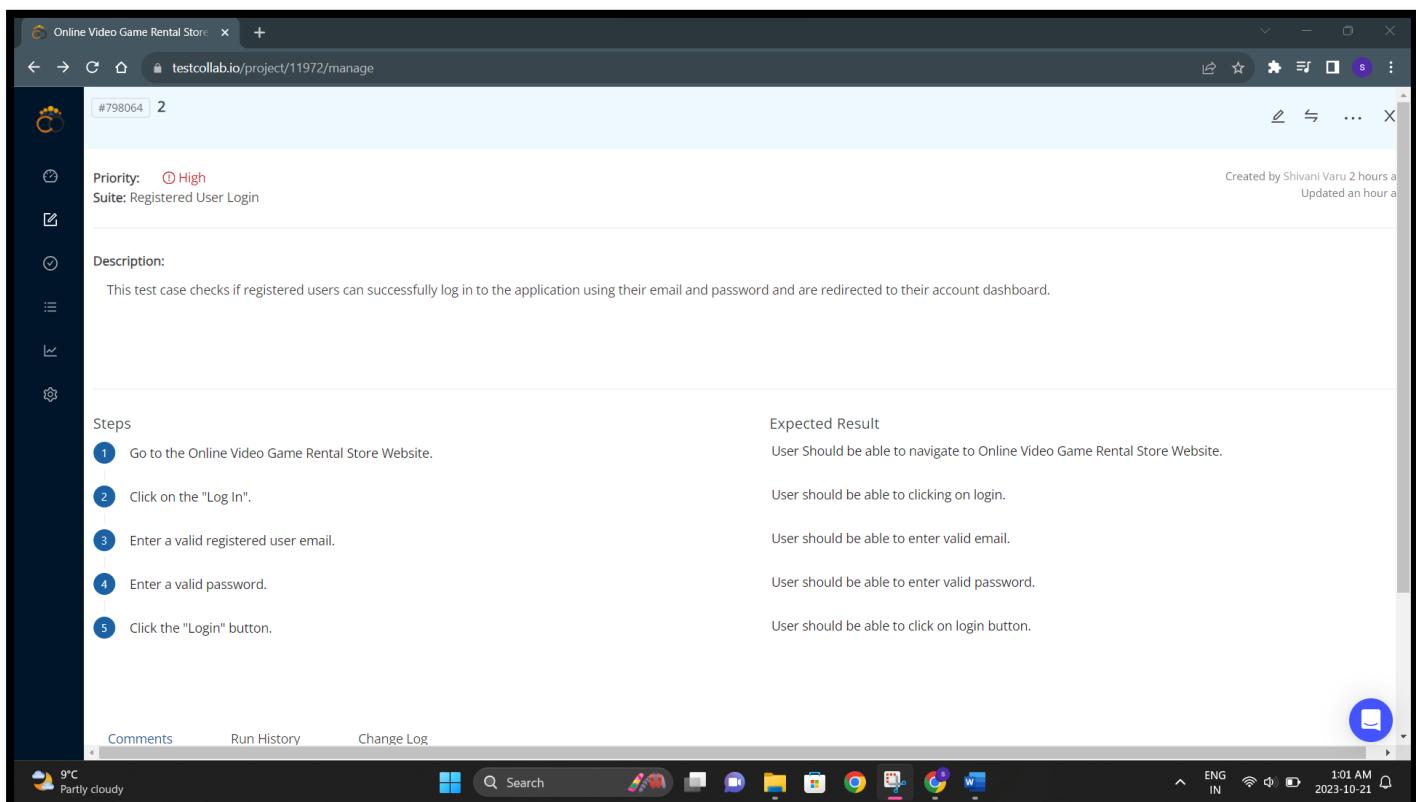

- 1 Go to the Online Video Game Rental Store Website.
- 2 Check that a user can access and view the list of video games available for browsing.
- 3 Ensure there are no options for reserving or signing out games for guest users.
- 4 Click on multiple games and ensure game details are displayed correctly.

Expected Result

User Should be able to navigate to Online Video Game Rental Store Website.
User should be able to access and view the list of video games available for browsing.
User should not be able to see the options for reserve or signout games.
User should be able to click on multiple games and games details should be displayed correctly.
